1. Introduction

This guide outlines how to install and uninstall the microscope application program step-by-step. In the package, a setup CD should be provided. If the CD is missing or damaged, the setup files are available through download at http://www.aveninc.com.

2. Microscope Application Program Installation and Uninstallation

2.1 Application Program Installation

2.1.1 Start the Setup Program

To begin, click “Install Microscope Application Program”, and then select a language from the drop-down menu as seen in Fig. 2-1. If you wish to cancel the setup please click “Cancel” and then click “OK”

Fig 2-1 setup language window

2.1.2 Welcome to the Microscope Setup Wizard

After selecting the language, the Microscope setup wizard will appear (see Fig.2-2). Click “Next” to continue or “Cancel” to exit. In the following figures, “name” represents the application program name and “X.XXX.XXXx” represents the application program version.
